

## **PRESS RELEASE**

### **Aeroitalia inaugurates new operational base at Salerno Costa d'Amalfi and Cilento Airport**

**Salerno, May 22, 2026** - Aeroitalia officially inaugurated today its new operational base at **Salerno Costa d'Amalfi and Cilento Airport**, a strategic gateway to the Cilento area and the wider Campania region.

The day opened with the first Aeroitalia flight from Salerno to **Milan Malpensa**. Upon its return to Salerno Airport, the aircraft was welcomed with a ceremony and the symbolic ribbon-cutting that officially marked the launch of the new routes. Later, on the occasion of the departure of the flight to **Turin**, passengers received personalized gadgets as souvenirs of the inaugural flight.

The opening of the Salerno base operationally translates into the positioning of a dedicated aircraft and the launch of **19 weekly frequencies** to some of Italy's main destinations: **Milan Malpensa, Turin, Genoa and Trieste**. Following today's inaugural flights to Milan and Turin, services to Genoa and Trieste will also commence tomorrow, further increasing travel opportunities to and from Campania and the Cilento area.

In addition, from July through August, four new international leisure routes will be operated, with direct flights to Ibiza and **Palma de Mallorca, as well as to Mykonos and Santorini**. This new offering represents a concrete confirmation of Aeroitalia's commitment to investing in the growth of the Salerno Airport area, expanding the airport's international reach and stimulating outbound tourism.
